

# NEXT GENERATION ALLERGY TESTING

## Proprietary Nano-Bead Technology

### THE DETAILS

Test kits provided free of charge

2-minute finger prick test

Test for 300 extracts and molecular allergens

Results in 2-3 business days

In-network billing

Training and support provided

### THE TECHNOLOGY

NanoSpot™ is the first in-vitro multiplex test allowing simultaneous measurement of total IgE (tIgE), specific IgE (sIgE) of 165 extracts, and specific IgE (sIgE) of 135 molecular allergens. Based on our test panel composition of 300 allergen extracts and molecular allergens, a near complete picture of each patient's sensitization is obtained. Our easy-to-read patient report offers integrated result interpretation guidance for each positive allergen and can be easily generated in 24 different languages.

OUR TEST PANEL		
<b>62 Environmental</b> <ul style="list-style-type: none"> <li>• 35 Grass, Tree &amp; Weed Pollens</li> <li>• 21 Animals &amp; Mites</li> <li>• 6 Molds &amp; Yeasts</li> </ul>	<b>94 Foods</b> <ul style="list-style-type: none"> <li>• 16 Seeds &amp; Grains</li> <li>• 7 Egg &amp; Milk</li> <li>• 14 Fruits</li> <li>• 14 Nuts &amp; Legumes</li> <li>• 10 Meat</li> <li>• 20 Seafood</li> <li>• 7 Vegetables</li> <li>• 6 Spices</li> </ul>	<b>5 Insect Venoms</b> <b>4 Other, including latex</b> <b>135 Molecular allergens</b>

### HOW IT WORKS

① FINGER PRICK	② COLLECT & SHIP	③ RELIABLE RESULTS
Eliminate the time intensive, painful scratch test or venous blood draw with an <b>easy-to-use</b> finger prick.	All collection supplies are in the kit and we only require <b>8-10 drops of blood</b> . Pre-paid shipping included.	Our accurate and reliable report will be in your secure, HIPAA compliant portal within <b>2-3 business days</b> .
